

Greeting Card

You can glue the flowers onto decorative paper using a glue gun. Or, to sew them onto the paper, use a needle to make a series of two holes (one pair for each flower). Thread the holes from the back. Then thread one end through a **T** bead. Add 1 **R8** bead. Thread the other end on the other side through a T bead. Thread through the two holes again. Knot the thread and cut off the excess thread.

Decorative Branch

Cut approx. 15 cm of binding wire. Bend in half. Add 1 **R** bead and place it in the bend. Add 1 **R8** on each end, then add a flower. Bend the wires and place the flower on the branch. Wind each end of wire around the branch once. Twist the wires several times under the flower.

SAKURA

ACCESSORIES MADE FROM PRECIOSA Chilli™ AND PRECIOSA Twin™

The elongated, whimsical shape of the **PRECIOSA Chilli™** complements our popular line of two-hole beads, both of which have the same hole spacing. Try this how-to guide and create a delicate cluster of blossoms reminiscent of a blooming sakura (cherry) tree. Choose from a wide range of PRECIOSA Traditional Czech Beads™ colors and make a delightful combination of flowers using two-hole beads, **PRECIOSA Twin™** or PRECIOSA rocaille.

Procedure:

Cherry Blossom

Step 1

Pass your needle through one hole of a **T** bead. Add 1 **Ch** bead using the dimpled hole closer to the bead's center. Thread the other **Ch** hole from the back side. Pass your thread through the second **T** hole. Pass through the edge hole on **Ch** again, this time in its dimple. On the back, pass through the hole closer center as well. Turn the **T** bead so that its hole is level with the **Ch** hole. Pass through same hole in **T** as you did at the beginning, but in the opposite direction. Pick up 2 **R** beads.

Step 2

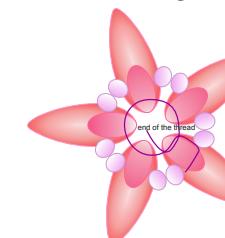

Repeat STEP 1 four more times.

Step 3

Pass through the hole of the first **T** bead.

Create a circle from the **T** and **R** beads.

Pass through the second hole on the first **T** bead. Pass through the second holes on the remaining **T** beads as well. Pull the thread tightly, knot, and hide the thread's ends into the surrounding beadwork.

Headband

To make a headband you need 16 flowers. Place the binding wire onto the headband. Wrap the wires around each other approx. four times. Pass the binding wire through the bottom center of a flower. Add 1 **R8** and 1 **R**. Return back through the **R8** with the wire and tighten with the help of your flat-nosed pliers. Wind the wire around the headbands three times, and then add another flower. Continue this process until you have added all the flowers. Wrap the end of the binding wire

around the headband several times between the binding wire and flowers.

Bracelet

Use as many flowers as you need for the length of your bracelet. Using a rivet add 1 **R8**, a flower and then another **R8**. Form loop with the rivet. Hold the end of the rivet with the flat-nosed pliers and wrap it around the plier tip. Thread the elastic through the rivet loops. In between each flower add 6 **R8** seed beads. Knot the elastic's ends together several times and cut off the remaining ends.
