BEGINNER

Keep the design and crystals selection simple, and focus on precise, clean application using a quick-drying glue or use a hot-fix applicator if applicable.

Pro tip:

Select at least five different sizes of Chaton Rose MAXIMA in one color.

INTERMEDIATE

Choose your favorite fancy flatback stones and lay them out in a pattern or design you like before applying them.

Pro tip:

For a different look, place the stones randomly only on the tips of the bow.

ADVANCED

Carefully place the fancy stones in their silver settings on the bow. Start sewing the crystals onto the bow, securing each stone tightly to the velvet, and repeat this a couple of times to ensure it's securely fastened.

Pro tip:

For a striking gradient effect, use more stones at the tip of the bow, gradually decreasing the density as you move upwards.
