24) ... and through the next 4mm FP.

29) Repeat steps 23 - 28 until you reach the end of the row.

25) Add nine 15/0s and then pass through the lower hole of the nearest Superduo (as shown in the photo).

30) Optionally you can weave through the last row one more time - but always skip the middle 8/0 in each corner.

26) Add four 15/0s and then pass back through the "middle" bead of the nine 15/0s you added in the previous step.

31) Tie a few half-hitch knots and cut off all the remaining thread. Use a jump ring to attach an earwire ...

27) Add another four 15/0s and then pass through the next 4mm FP ...

32) ... and maybe add a small chain tassel, a drop-shaped bead or another embellishment. Or you can create more of these components and use jump rings to connect them into a bracelet or a necklace.
