

# PRECIOSA

DIY

difficulty

The perfect touch  
of spring green!

Celebrate Saint Patrick's  
Day with this  
eye-catching headband  
covered in Preciosa  
flatbacks!

## YOU WILL NEED

- **Preciosa no-hotfix MC Chaton Roses MAXIMA stones in your choice of colors and in the size that fits the width of your selected headband.**

We've selected size ss20 in Emerald, Erinite and Peridot. We are using 20 pieces of each color. Another suitable shade is our newly launched Shamrock green!

- **One plain brass headband**  
We've selected a 0.4cm wide headband.
- **Skewer**
- **Beeswax**
- **90-min two-component adhesive**

## DIY STEP-BY-STEP GUIDE

- 1** Prepare the beeswax by making a small tip on one end of the skewer. It will serve for easy pick-up and application of the stones.

- 2** Leaving about 4cm from one tip of the headband free, apply the glue from one end of the headband all the way around until about 4cm away from the other tip. Transfer first Emerald stone with the wax-tipped skewer onto the glue. Follow the same step with Erinite and Peridot stones.

- 3** Continue the process rotating the three colors until you have covered the entire glued portion of the headband.

- 4** After all stones have been applied, let it dry for 24 hours on a flat surface. Now the headband is ready for a stylish Saint Patrick's Day celebration!
