NECKLACE OF RINGS MADE WITH THREE SIZES OF PRECIOSA CANDY™

# Linked Rings

PRECIOSA

# Linked Rings

*PRECIOSA Traditional Czech Beads™ offers three sizes of two-hole PRECIOSA Candy™ pressed beads. Try to create this simple necklace from them. Connect individual same-size beads with PRECIOSA rocaille. Add metal rings and ribbon and you're done!*

## Materials and tools:

PRECIOSA Candy™  
111 01 363; 6 mm;  
02010/14413 Ivory; 14 ks (C1)

111 01 363; 8 mm;  
13020 Beige; 12 ks (C2)

111 01 363; 12 mm;  
02010/25039 Creamy Wax; 5 ks (C3)

PRECIOSA Rocaillon (R)  
331 19 001; 10/0;  
20206 Gold; 56 ks

Gold: 6 mm and 4 mm rings; end caps with loops; lobster claw clasp; extension chain

Nylon thread 0.20 mm; thin needle; scissors; flat pliers (for flattening the thread end, working with the rings, etc.); pliers for cutting; a delicate beige ribbon 0.7 cm; thin tailor's thread

Difficulty: ●●●●●

## Procedure:

### Rings Made with 6 mm PRECIOSA Candy™

Step 1:  
Alternating beads, thread 7 C1 and 7 R.  
The larger side of the C1 should all be facing the same way (outward).

Step 2:  
Thread all the beads one more time and then tighten. Tie two knots. Pull the ends of the thread through several C1 and R and then trim the ends.

Step 3:  
Thread the empty outer C1 holes, adding 3 R in between each C1.

Step 4:  
Thread all these beads once more and then tighten. Tie two knots. Pull the ends of the thread through several C1 and R and then trim the ends.

**Rings Made with 8 mm PRECIOSA Candy™**  
Step 1:  
Thread 6 pieces of C2. Make sure all C2 are oriented correctly.

Step 2:  
Thread the beads once again then tighten. Tie off and finish.

Step 3:  
Thread the empty outer C2 holes, adding 5 R in between each C2.

Step 4:  
Thread all the beads two more times (for a total of 3). Tighten, tie off and finish.

**Rings Made with 12 mm PRECIOSA Candy™**  
Step 1:  
Thread 5 C3. Make sure all C3 are oriented correctly.

Step 2:  
Thread everything two more times (total of 3).  
Tighten. Tie off and finish.

Step 3:  
Thread the empty outer C3 holes,  
adding 5 R in between each C3.

Step 4:  
Thread everything two more times  
(total of 3). Tighten. Tie off and finish.

### Linking the Rings

Step 5:  
Connect adjacent bead rings with two 8mm  
metal rings. Open the metal ring.  
Thread the rocaille of both bead rings and close  
the metal ring. Divide the bead rings visually  
into two sides. Use the spaces between them to  
link or add to the bead rings. Three C1 rings will  
be at the top, four will be at the bottom.  
Divide the C2 rings. Two C3 rings will be  
at the top, three will be at the bottom.

### Completion

Step 6:  
Cut off 30 cm of ribbon. Thread through  
the outer rings. Adjust the ribbon so that  
the necklace is hanging in the middle evenly.  
Wrap the ends of the ribbon with the thin tailor's  
thread. Tighten the thread and tie it off.  
Cut off the excess tailor's thread.  
Put some glue into one barrel end cap.  
Place one thread-wound ribbon end into  
the cap. Allow to dry. Repeat with the other  
ribbon end and cap.

Step 7:  
Snip off 15 cm of the extension chain.  
Using 4mm metal rings attach both ends of the  
chain to one ribbon end. Add the lobster claw  
clasp to the other end of the necklace.
