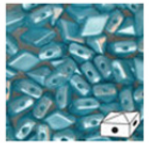
Rose Montee Resort Cuff

DIAMONDUO™

Materials Needed:

60" Thread
2 Beading Needles
1 Set of Pliers
Glue



DIAMONDUO™ 2-HOLE BEAD 5X8MM PASTEL AQUA - 50 GRAM BAG (APX 340 PCS)
PRODUCT#: DD/25019/58

Apx. 22 Beads Needed

ROSEMONTEES PRECIOSA MC VIVA12 SS16 CRYSTAL APRICOT ON GOLD PLATE - 144PCS
PRODUCT#: RM7982/AP/16G
NEW

Apx. 42 Beads Needed

2TINY™ 2MM CRYSTAL ROSEGOLD FIRE POLISH LOOSE (PRICED PER 100)
PRODUCT#: FP/28009/2

Apx. 125 Beads Needed

6MM 20G (0.76MM) OPEN JUMP RING 14K GOLD FILLED 50PCS
PRODUCT#: GFRI3303/20G/6

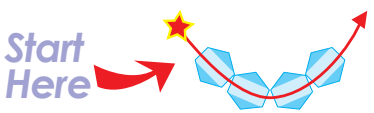
2 Pieces Needed

6MM MAGNETIC CLASP GOLD PLATE (PRICED PER 100)
PRODUCT#: CL289M/GL

1 Set Needed

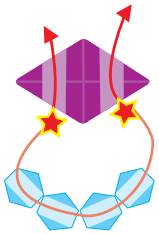
Create Original FP Loop

1) Attach a needle to each end of a 29" length of thread. Using one length, thread 4 FP.



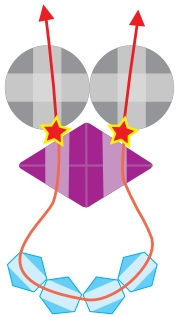
Add DiamonDuo™

2) Pass through the left and right holes of a DD, using the left and right lengths of thread, respectively. Pull to tighten loop.



Add Rose Montee

3) Add1 RM to both lengths of thread, moving vertically.



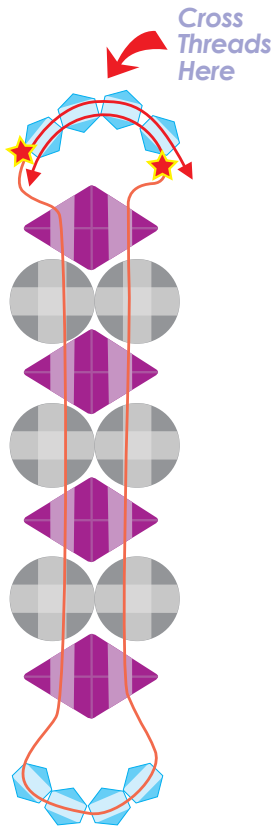
Repeat Steps 2-3 Until Desired Length of Bracelet is Reached.

KEY

- Entry Point
- Half-Hitch Knot
- Thread's Direction
- Previous Steps
- = DiamonDuo™ **DD**
- = 2 Tiny™ 2mm Fire Polish Bead **FP**
- = Rose Montee **RM**

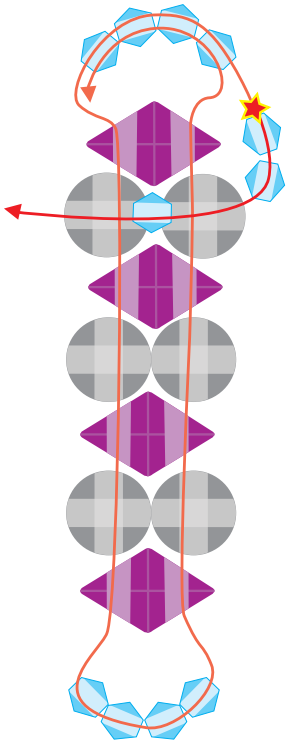
Cross Threads / Create 2nd FP Loop

4) Thread 4 FP with one thread first. Thread those same beads using the other length of thread, but going in the opposite direction.



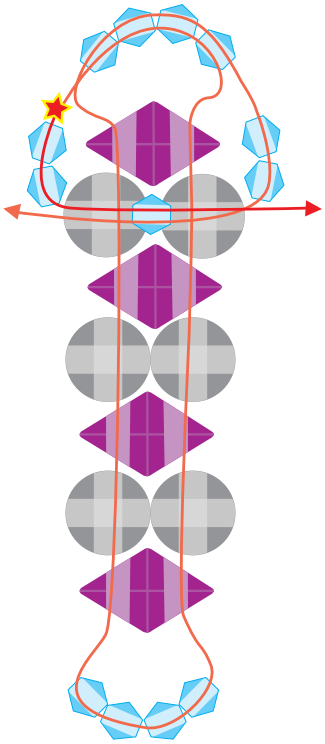
Re-thread Rose Montees

5) Using one length of thread, add 2 FP. Pass back through adjacent RM, moving in a lateral direction, so that both perpendicular holes of RM are now threaded. Add 1 FP between the 2 RM, then continue through adjacent RM, moving in a lateral direction. Pull to tighten.

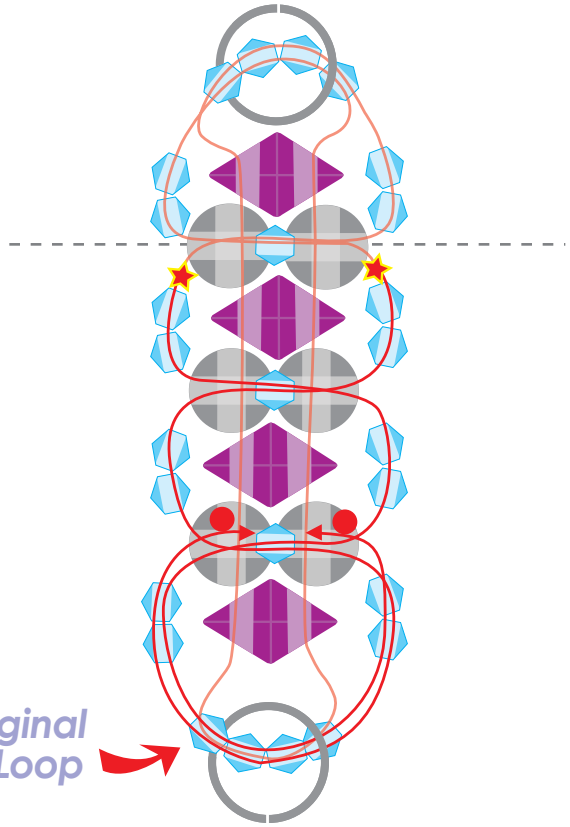


Re-thread Rose Montees

6) Using the other length of thread, add 2 FP. Pass through the RM just threaded, now threading in the opposite direction. Thread the center FP, then thread the adjacent RM, continuing in this lateral direction.



Repeat Steps 5-6 Until FP Beads Embellish Entire Length of Bracelet

Tuck Knots / Add Jump Rings


7) When original loop is reached, re-thread through FP loop using both lengths of thread. Tie half-hitch knot to both lengths of thread, and pull not inside RM and tuck.
