

# Step 1

## Thread Inner Holes

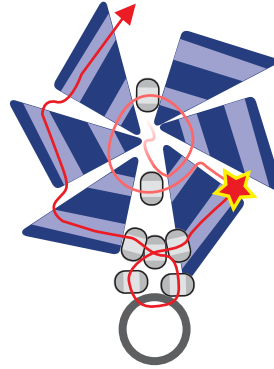

Moving counter-clockwise, thread 3 TG using their short holes. Thread SB, 3 TG using short holes. Thread SB. Pull thread, leaving 8" Tail. Rethread same holes of same beads a second time to reinforce circuit. Pull to tighten, creating TG ring.

# Step 2

## Thread Outer Holes

Turn thread's direction, rethreading vacant long hole of same TG. Add 3 SB, JR, SB. Rethread 2nd SB, going in the same direction. Pull to tighten, then add 1SB. Moving clockwise, thread long holes of 3 TG, pulling to tighten.

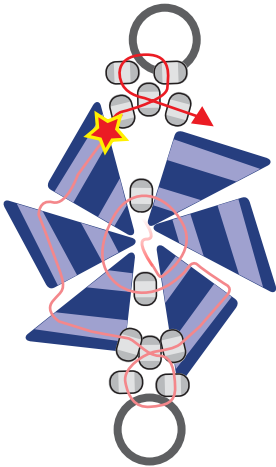

KEY	
	Entry Point
	Half-Hitch Knot
	Thread's Direction
	Previous Steps
	= Tango Bead <b>TG</b>
	= Seed Bead <b>SB</b>
	= Closed Jump Ring <b>JR</b>

# Step 3

## Create Seed Bead Loop

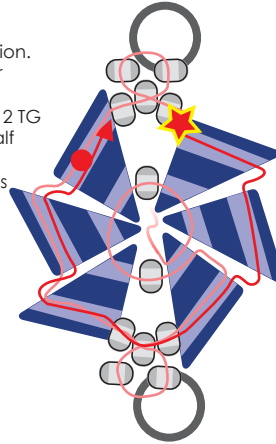

Thread 3 SB, 1 JR, and 1 SB. Using right angle weave, rethread 2nd SB going in the same direction to create loop. Add 1 SB.

# Step 4

## Thread Outer Holes

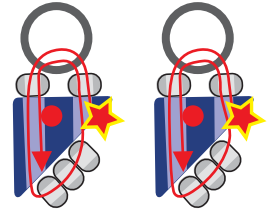

Moving in a clockwise direction. Thread 3 TG using long/outer holes. Rethread 3 SB along perimeter, continue through 2 TG using long/outer holes. Tie half hitch knot, pull knot inside adjacent TG, then cut excess thread.

# Step 5

## Beaded TG Tassels

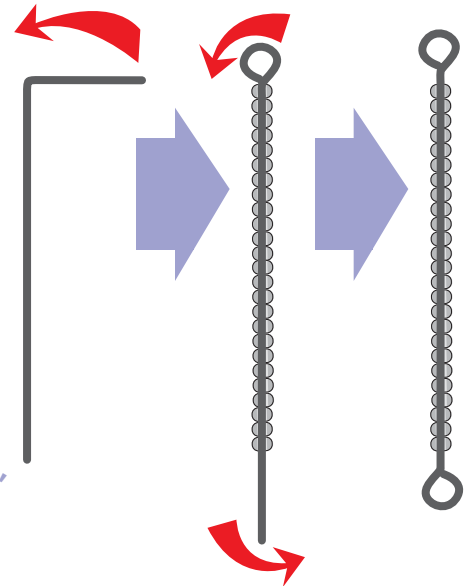

Moving counter-clockwise, thread short hole of TG, coming up through diagonal side. Thread SB, JR, SB. Continue down through long hole of same TG, next adding 3 SB. Rethread TG, SB, JR, and SB a second time to reinforce circuit. Tie half hitch knot, pull knot inside TG, cut excess thread. Tie knot to other end of thread and hide inside TG. Repeat Step 5 to make a second beaded TG tassel.

# Step 6

## Clip/Loop Head Pin, Add SB

Clip head off 50mm head pin. Using flat nose pliers, bend .5" tip of pin over at a right angle. Using round nose pliers, curl tip of pin backwards, rolling the tip of the pin into a tightly closed loop. Add apx. 25 SB to pin, so length of pin is covered by SB. Create another loop at the other end of pin to secure SB on pin. Repeat this step a second time for another beaded pin.

# Step 7

## Attach Beaded Pins to TG Ring

Open loop at each end of pin and close around jump rings of beaded tassels. Add open JR to existing closed JR at lower seed bead loop of TG Ring. Close loops of both beaded pins to this lower hanging JR. To finish, close loop of ear wire around uppermost JR on TG Ring.
