

Tango Angels™

Step 1 Attach Head

Thread a Round (D), 1 seed bead (B), 1 SD (E), and 1 Seed Bead (B), leaving a 4" tail of thread. Re-thread the Round (D), going in the same direction. Pull both threads to tighten cluster.

- Entry Point
- Knot
- Thread's Direction
- Previous Steps
- = DD (A)
(DiamonDuo™ Bead)
- = Seed Bead (B)
- = Tango™ Bead (C)
- = 4mm Round (D)
- = SuperDuo (E)
- = Open Jump Ring (F)

Step 2 Create Body

Moving in a clockwise motion, thread 2 seed beads (B), 2 DD beads (A) using the upper holes, and 2 additional seed beads (B), pull to tighten.

Step 3 Reinforce Circuits

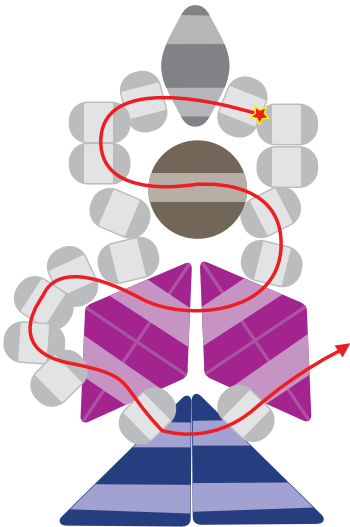

Circle back and pass through the Round (D), pulling to tighten. Moving counter-clockwise re-thread the seed bead (B), SD (E), and Seed Bead (B). Add 2 vseed beads, circle back through the Round (D). Re-thread the lower circuit: in a clockwise motion, pass through the seed beads, both DD beads (A), and seed beads (B). Re-thread the round (D), and add an additional 2 seed beads (B).

Step 4 Add Tango Beads

Re-thread beads: B,E,B,B,B,D,B,B,A,A, reinforcing the connections.

Add 4 seed beads, then re-enter DD bead (A), using the lower hole. Add 1 seed bead (B), and add 2 Tango™ beads (C) using the upper holes of their pyramid configuration. Add an additional seed bead (B), and enter the DD bead (A), using it's lower hole.

Step 5 Add Seed Beads

Add 4 seed beads (B).

Re-thread A,A,B,B,B,B,A,B,C,C.

Add 2 seed beads (B), re-enter Tango™ beads (C) through their lower holes. Add 2 seed beads (B).

Step 6 Finish Piece

Re-thread Tango™ bead's (C) upper hole, and tie a knot, then cut the excess thread, and tuck the knot inside the Tango™ bead (C). Attach needle to tail, and thread through DD beads (A). Tie a knot, pull it through DD beads (A), and cut. Tuck knot inside DD bead (A). Using pliers, attach an open jump ring (F) to SD bead (E).
